Title: The Pro-cut On-Car Brake Disc Lathe

The Pro-Cut On-Car brake disc lathe is a recommended tool for Jaguar workshops and is now available on the SPX Service Portal, accessed through GTR (<http://www.spxtools-shop.com/>)

The Pro-Cut brake disc lathe eliminates brake noise, removes rust and corrosion and delivers improved braking performance. It works on the vehicle by attaching itself directly to the hub and utilises an automatic, electronically-controlled, gyroscope system which is fast and easy to use.

For more information, or to arrange a demonstration of the on-car brake disc lathe, please see market websites for contact details
